PROFILE

I am a Javascript developer working in ReactJS mainly, having more than a year experience working in React based environment. In my last job I worked in the frontend of a commercial app using React Native and learned a lot. I enjoy facing problems and solving them by pressing a bunch of keys!. Currently learning AWS Amplify.

EDUCATION

- **Bachelor's in Computer Science**
Islamic University, Islamabad
2016 - 2021
- **Faculty of Science**
IMCB F/7-3, Islamabad
2013 - 2015
- **MATRICULATION**
IMCB F/7-3, Islamabad
2011 - 2013

SKILLS

- HTML
- CSS
- JAVASCRIPT
- REACTJS |
- REACT NATIVE

EXPERIENCE

Software Engineer – Frontend

September 2021 – Present | [Stack One \(Pvt\) Ltd](#)

Currently working as a **Software Engineer – Frontend** at *Stack One (Pvt) Ltd*.

REACT NATIVE DEVELOPER

March 2021 – June 2021 | [TechChaps](#)

I got a chance to work with Leicester based software company as **Jr. Frontend Developer** at *TechChaps* in March 2021 as a React Native developer. I was put in a fast pace team where I build UI of a mobile app and handled API consumption, working closely with the Backend team. *(I can show my work that I did there when needed)*

FRONTEND DEVELOPER

Nov 2020 – Dec 2020 | Freelance

I worked with a friend who was doing freelancing and my job was to convert PSD to HTML where I used HTML, CSS, JS and ReactJS to make it Reactive.

CERTIFICATES

Cloud Native and Mobile Web – [PIAIC](#)

It is a two year cloud native online course where I am learning about latest technologies. So far I have learned Javascript, ReactJS, Gatsby, Git/GitHub, Linux OS, PWA and much more and its still going on.

PROJECTS

→ A Gatsby-Contentful site

A content consuming site made using GatsbyJS for the frontend, headless CMS Contentful to create and consume content, redux for store management and deployment and CI/CD using Netlify. This project is not complete yet. Here's the link of its deployment: [youshopweship](#)

→ Expense Tracker

A simple expense tracker PWA made in React using useState, contextApi, service workers and more. It was deployed using GitHub Actions CI/CD. [expensetracker](#)

→ Quiz App

A quiz app, made using react hooks, TypeScript, Material UI, consuming open source quiz API, implemented as a PWA. Deployed on Netlify using GitHub Actions CI/CD. [quizapp](#)

There are a lot more projects in my github profile...
